

## Stoke Prior First School      Phonics Policy

### Introduction

Essential Letters and Sounds (ELS) is our chosen Phonics programme. The aim of ELS is to get all children to read well, quickly. It teaches children to read by identifying phonemes - the smallest unit of sound and graphemes - the written version of the sound, within words and using these to read words. ELS is a systematic synthetic phonics programme and was validated by the Department for Education in June 2021.

### 1. Aims and Objectives

Reading is at the heart of everything that we do and is a central part of every pupil's life at our school. We instil a love of reading from the very beginning of our children's education. Every child at Stoke Prior First School is a reader and so are their teachers. We believe all children can become confident readers during their time in primary education. Children's love for reading is evident through their engagement, desire to read for pleasure and their understanding of a range of texts, authors and illustrators and this is further developed throughout our reading curriculum.

### 2. Teaching and learning

ELS is a whole class teaching model. This means that every single pupil has the same opportunities when learning to read. Learning to read well, early, is a priority for every child. Children who may find it harder to learn how to read are given extra support from their teacher every day. We want to ensure that all children learn to read well and keep up rather than needing to catch-up.

To ensure all children learn to read well and quickly, children learn phonics from the very start of Reception and throughout Year One. It is explicitly taught every day during a dedicated slot on the timetable. Throughout the day, children use their growing phonic knowledge to support them in other areas of the curriculum and have opportunities to practise reading decodable texts precisely matched to their phonic knowledge. This includes reading 1:1 with a member of staff, with a partner during paired reading and during whole class reading sessions. We know that reading is a fundamental life skill and want to ensure that all children leave our school able to read well.

Daily phonics lessons continue further through the school where required, to ensure all children become confident, fluent readers.

The structure of ELS lessons allows children to know what is coming next, what they need to do, and how to achieve success. This makes it easier for children to learn the GPCs we are teaching - the alphabetic code and how to apply this when reading.

### 3. Phonics Resources

ELS is supported by a wide range of completely decodable texts. These cover both fiction and non-fiction and are exciting and engaging for all our pupils. We match the home reading texts to each child's current phonic knowledge to ensure that they consolidate their most recent teaching and learning at home.

Children experience the joy of books and language whilst rapidly acquiring the skills they need to become fluent independent readers and writers. ELS teaches relevant, useful and ambitious vocabulary to support our children's journey to becoming fluent and independent readers.

Our classrooms are well resourced to ensure that every child has the resources required to learn to read well.

#### 4. Phonics Planning

We follow the ELS progression and sequence. This allows our children to practise their existing phonic knowledge whilst building their understanding of the 'code' of our language. As a result, children can tackle any unfamiliar words that they might discover.

We begin by teaching the single letter sounds before moving to digraphs - two letters spelling one sound, trigraphs - three letters spelling one sound and quadgraph - four letters spelling one sound.

We teach children to:

- decode by identifying each sound within a word and blending them together to read fluently.
- encode by segmenting each sound to write words accurately.

Partway through Year One, we teach children more rarely used GPCs grapheme/phoneme correspondences, through the ELS progression. This means that they can decode and read more words with increased fluency.

#### 5. Teaching Phonics to children with special needs

ELS is designed on the principle that children should 'keep up' rather than 'catch up'. Interventions are delivered within the lesson by the teacher and any child who is struggling with the new knowledge can be immediately targeted with appropriate support. Where further support is required, interventions are used where needed. These interventions are short, specific and effective. ELS are always available to provide support for schools, where in-class or the usual additional interventions are not appropriate.

ELS is designed to make use of all the teaching time during the phonics lesson – through targeted support where required, reducing the need for external interventions - meaning that there is minimal disruption to curriculum teaching time. Where further phonic support is required in Key Stage Two, this is timetabled daily to ensure that any child catches up.

#### 6. Assessment

Children are assessed in week five of each half term to ensure that any specific gaps can be targeted immediately. We reinforce the link between reading and writing in every ELS lesson through the independent application of the children's understanding. We also ensure that all our teachers reference the learning from ELS lessons when writing as part of the wider curriculum.

#### 7. Monitoring and Review

All members of staff are trained to teach ELS to ensure that we have an expert team of reading teachers led by our Phonics and Early Reading Lead. This ensures that all children receive high-quality first teaching every day. The coordination of the phonics and early reading curriculum are the responsibility of the subject leader, who also:

- supports colleagues in their teaching by providing a strategic lead and direction in the school;
- gives the head teacher a regular update and an annual summary report in which the strengths and weaknesses in phonics are evaluated and indicates areas for further improvement;
- uses allocated management time to review evidence of the children's work, and to observe lessons of phonics across the school.
